TECHNICAL PAPER AUTHOR RELEASE

**2025 Annual Meeting
October 6-9, 2025
Marriott Knoxville Downtown
Knoxville, Tennessee**

The TRFA utilizes the presentations made at its meetings as a source of information to be made available to persons interested in and seeking information related to the thermoset industry. This information consists of making available electronic copies of papers presented at TRFA meetings on a flash drive and the website for meeting attendees and to TRFA members on the Members-Only section of the website or video tapes of presentations presented at TRFA meetings. Signing this form constitutes authorization for this use by TRFA. Your paper/presentation will be converted to a .pdf document before publishing on the meeting flash drive and website or posting on the TRFA Members-Only website.

To enable the TRFA to use the information presented by you at an association meeting in any of the above forms, we request that you sign this form which constitutes such an authorization for use by the TRFA. This authorization includes approval for the TRFA to charge a nominal fee for the distribution of information changed periodically to cover the costs incurred in such distribution.

The TRFA requests that papers presented at its meetings and subsequently published in the trade press or elsewhere include the following acknowledgement: "Presented at a meeting of the Thermoset Resin Formulators Association in LOCATION, DATE OF PRESENTATION." If your paper is published in a revised form but is essentially the same as the original presented at TRFA, we would appreciate credit as follows: "Based on a paper presented at a meeting of the Thermoset Resin Formulators Association in LOCATION, DATE OF PRESENTATION."

TECHNICAL PAPER GUIDELINES
2025 Annual Meeting
October 6-9, 2025
Marriott Knoxville Downtown
Knoxville, Tennessee

Thank you for considering the presentation of a technical paper or presentation at the TRFA 2025 Annual Meeting. TRFA has established a high standard for quality technical paper and short course presentation content. Your commitment and that of your company are greatly appreciated by the members of TRFA and the thermoset industry.

Important Policy Reminder:

TRFA will not tolerate or authorize any discussion concerning current or future prices, production levels, market share, geographical allocation of markets, boycotts, restrictions on or refusals to deal with one or more suppliers or customers, transportation rates, future intentions regarding credit matters of other members or companies, or other matters that may be interpreted as unreasonable restraints of trade. [Click here to review the TRFA Antitrust Policy.](#)

NOTE: On-site presentations are limited to 30 minutes including questions/answers.

THE PAPER AND PRESENTATION SHOULD NOT BE OF A COMMERCIAL NATURE.

- Limit reference to your company name, logo, and product(s) trade name to be used only ONCE during the entire presentation, in your presentation slides, paper, and oral delivery. You may include one company logo on the title slide.
- Do not use other company names and trade names. Refer to competitive products by their generic name only.
- Please do not include any pricing information in your presentation. This would be a violation of anti-trust rules. [Click here to view the TRFA Antitrust Policy.](#)
- You may include the market impact of the products and techniques discussed in your presentation and their application for the end-user.
- The paper and the presentation will be reviewed by the committee chair(s), conference chair, or their delegate. After review of the paper, if it is identified that the paper contains non-conforming information, i.e. pricing, repetitive use of company logo, competitive company or trade names, or any information that does not follow the TRFA Antitrust Policy, the author will be asked to modify the paper appropriately before given permission to present.
- The first page of both the paper and presentation should include the following credit:

"Presented at a meeting of the Thermoset Resin Formulators Association"

PAPER ORGANIZATION

The paper should be organized in the following order:

Cover page, main body, references, appendices, and authors' biographies.

Suggested format is one-inch margins on all sides, using 12-point type and single-spaced.

COVER PAGE

The cover page should list the author's name, title of article, title of author, affiliation, full address, telephone number, email address, and date of presentation.

ACKNOWLEDGEMENTS

Acknowledgements should appear at the end of the text preceding the reference.

TABLES AND FIGURES

Tables and figures should be placed on the page where they are first referenced.

REFERENCES

If you use only four or five references, use footnotes. If there are more than four or five, use a list of references at the end of the paper. In this case, each reference should be numbered serially, and in the text these numbers should appear in brackets or with superscript numerals.

BIBLIOGRAPHY

Quotations and references to other published material should be correlated in the text. To do this, use numbers in parentheses. Each reference should consist of the following: name of publication, author(s), date and number of publication and page numbers.

APPENDIX

Certain material in mathematical papers such as equations and formulae may better be put in a separate appendix at the end of the paper. Other related, but nonessential material, such as description of apparatus may be included in the appendix.

ORAL PRESENTATION TIPS:

- The volume of material presented should fit the allotted time, when delivered slowly and distinctly.
- Emphasize the conclusions you wish to present, rather than an elaborate introduction.
- Speak to the entire audience, to be sure those in the back of the room can hear.
- Stand erect, with your head up, and project your words clearly.
- **DO NOT READ** your paper - limited notes to refresh your memory are best.
- Don't leave a slide on the screen when you have finished discussing it. A blank screen between slides will not distract your audience from your presentation
- Remember to repeat the questions during the question and answer period immediately following your presentation. This will be helpful to the audience and give you time to think about the answer.
- Insert duplicate slides/visuals if you need to refer to the same slide at several different times in your talk.

PRINCIPLES AND RULES FOR SLIDE/VISUAL PRESENTATIONS:

PowerPoint® Slides/Visuals are only useful if they:

- a. Contain only enough information to illustrate one major idea.
- b. Are visible even in the last row of a large auditorium.
- c. Show something that can't be explained as well without the slide.
- d. Contain tables, which illustrate a point. (Avoid lengthy tables, which are for journal print when they may be fully examined.)
- e. Number usually one per minute of talk, i.e., 10 slides in 10 minutes.

If you have any questions, contact:

Thermoset Resin Formulators Association
Office: 414-488-3916 / Fax: 414-755-1346
Email: info@trfa.org

TECHNICAL PAPER IMPORTANT DATES

2025 Annual Meeting

October 6-9, 2025

Marriott Knoxville Downtown

Knoxville, Tennessee
